3. Intended use of the construction product, in accordance with the applicable harmonized specification

Suspended ceiling membrane components for use internally in buildings to produce an installed suspended ceiling

4. Name, registered trade name and contact address of the manufacturer

Saint-Gobain Ecophon AB
 Box 500, 265 03 Hyllinge, Sweden
www.ecophon.com

5. Name and contact address of the authorized representative

Not applicable

6. System(s) of Assessment and Verification of Constancy of Performance of the construction product

System 1 (Reaction to fire) System 3 (Flexural tensile strength) System 4 (Release of formaldehyde, Sound absorption)

7. In case of the declaration of performance concerning a construction product covered by a harmonized standard

RISE Research Institutes of Sweden (notified body 0402) performed a determination of the product type on the basis of type testing, type calculation, tabulated values or descriptive documentation of the product; an initial inspection of the manufacturing plant and of factory production control; a continuous surveillance, assessment and evaluation of factory production control under System 1 for the characteristic Reaction to fire and issued a Certificate of Constancy of Performance.

RISE Research Institutes of Sweden performed a determination of the product type on the basis of type testing, type calculation, tabulated values or descriptive documentation of the product properties under System 3 and issued a test report.

A determination of the product-type on the basis of type testing, type calculation, tabulated values or descriptive documentation of the product properties under System 4 was performed. No tasks for the notified body.

8. In case of the declaration of performance concerning a construction product for which a European Technical Assessment has been issued

Not applicable

6. Le ou les systèmes d'évaluation et de vérification de la constance des performances du produit de construction, conformément à l'annexe V:

Système 1 (Réaction au feu) Système 3 (Résistance à la traction en flexion) Système 4 (Dégagement de formaldéhyde (classe), Absorption acoustique)

7. En cas de déclaration de performance concernant un produit de construction couvert par une norme harmonisée

Les instituts de recherche RISE de Suède (organisme notifié 0402) ont effectué une détermination du type de produit sur la base d'essais de type, de calculs de type, de valeurs tabulées ou de documentation descriptive du produit ; une première inspection du plan de fabrication et du contrôle de production en usine ; une surveillance continue, une évaluation et une évaluation du contrôle de la production en usine selon le système 1 pour la caractéristique Réaction au feu et a délivré un certificat de la constance de performance.

L'institut de recherche Suédois RISE a déterminé le type de produit sur la base d'essais de type, de calculs de types, de valeurs tabulées ou de documentation descriptive des propriétés selon le système 3 et ont publié un rapport d'essai.

Une détermination du type de produit sur la base d'essais de type, de calculs de type, de valeurs tabulées ou d'une documentation descriptive des propriétés selon le système 4 a été effectuée. Aucune tâche pour l'organisme notifié.

8. Dans le cas de la déclaration des performances concernant un produit de construction pour lequel une évaluation technique européenne a été délivrée:

7. No caso de uma declaração de desempenho relativa a um produto de construção abrangido por uma norma harmonizada:

Os Institutos de Pesquisa RISE da Suécia (organismo notificado 0402) realizaram uma determinação do tipo de produto baseado em testes de tipo, cálculo de tipo, valores tabulados ou documentação descritiva do produto; uma inspeção inicial do plano de fabricação e do controle de produção da fábrica; uma vigilância contínua, avaliação do controle de produção da fábrica sob o Sistema 1 para a reação característica ao fogo e emitiram um Certificado de Desempenho.

RISE Research Institutes of Sweden performed a determination of the product type on the basis of type testing, type calculation, tabulated values or descriptive documentation of the product properties under System 3 and issued a test report.

A determination of the product-type on the basis of type testing, type calculation, tabulated values or descriptive documentation of the product properties under System 4 was performed. No tasks for the notified body.

7. В случай на декларация за експлоатационни показатели относно строителен продукт, обхванат от хармонизиран стандарт

Шведските изследователски институти RISE (нотифициран орган 0402) извършиха определяне на типа продукт въз основа на изпитване на типа, изчисляване на типа, таблични стойности или описателна документация на продукта; първоначална проверка на производствения план и на фабричния производствен контрол; непрекъснато наблюдение и оценка на фабричния производствен контрол по Система 1 за характеристиката „Реакция на огън“ и издадоха Сертификат за експлоатационни показатели.

Шведските изследователски институти RISE извършиха определяне на типа продукт въз основа на изпитване на типа, изчисляване на типа, таблични стойности или описателна документация на свойствата по Система 3 и издадоха тестов доклад.

Извършено е определяне на типа продукт въз основа на изпитване на типа, изчисляване на типа, таблични стойности или описателна документация на свойствата по Система 4. Няма задачи за нотифицирания орган.

8. В случай на декларация за експлоатационни показатели относно строителен продукт, за който е издадена европейска техническа оценка
