

### Description

The Delta UPS V3 is specifically designed for basement drainage systems (submersible pumps/sump pumps) when there is a loss of mains power. It will keep one Delta V3 Submersible Pump running during a power outage, keeping basements dry.

If power failure occurs, the Delta UPS V3 automatically powers the Delta V3 pump. It can provide power for 30 minutes continuously, based on a 3.5 m head. This is equivalent to 30 hours protection, in accordance with PCA guidance of a minimum of three activations per hour.

A buzzer alerts the user when the pump is drawing power from the battery.

Simple to use and easy to install – the Delta UPS V3 clearly displays its status and comprehensive fault codes.

It is not suitable for powering a Delta V4 or Delta V6 pump. For such installations, please refer to the Delta UPS V4/6 or the Delta Battery Backup V4/6 range.

### Features

- Capable of running 1 x V3 ground water pump without mains power for up to 30 hours (depending on number of cycles/hr)
- Industry leading backup power
- Quick charge to top-up the battery from empty to 80% in just 4 hours
- Digital display to show status and comprehensive fault codes
- Virtually inaudible

### Specification

- L V 2014/35/EU low voltage
- EMC 2014/30/EU electromagnetic compatibility
- Safety IEC EN 62040-1
- EMC IEC EN 62040-2
- RoHS compliant

### Product details

DMS E021

### Associated products

- Delta Dual V3 Packaged Pumping Station
- Delta 800 Series – Dual V3

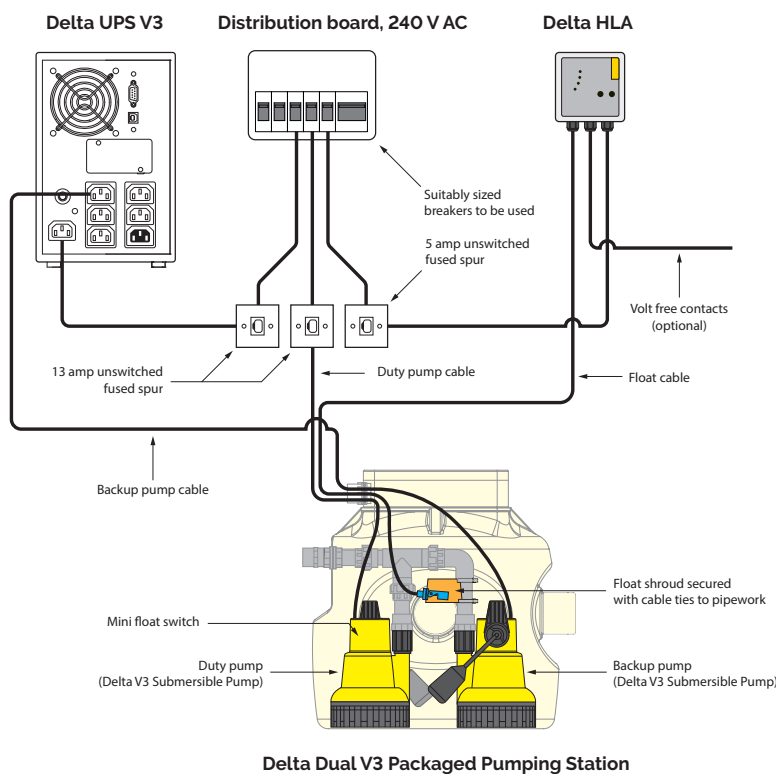

# PRODUCT DATA SHEET

## Delta UPS V3

### Technical data

Delta UPS V3	
<b>Input</b>	
Nominal voltage	220–240 VAC
Nominal frequency	50 Hz
Nominal current	9.7 A
<b>Battery</b>	
Usage (based on a 3.5m head)	Delta V3 pump, 30 mins continuous
Battery type	Maintenance-free lead based
Recharge time	<4 hours for 80% of the load
<b>Output</b>	
Nominal voltage	230 VAC
Frequency	50 Hz
Nominal power	2000 VA
Nominal power	1600 W
<b>Other</b>	
Ambient temperature	0°C to +40°C
Humidity	< 90% without condensation
Protection devices	<ul style="list-style-type: none"> <li>• excessively low batteries</li> <li>• overcurrent</li> <li>• short circuit</li> <li>• overvoltage</li> <li>• undervoltage</li> <li>• circuit breaker</li> </ul>
Max dist. to chamber	10 metres
Weight	19 kg

### Example installation
