The new E-Tool

from Daikin UK

When you are under pressure to deliver quotes for your customers, instant access to accurate product and pricing information is a great advantage for your business.

The new E-Tool from Daikin UK enables you to generate quotes and place orders for Split and Sky Air products online, at any time of day or night – and on any device.

What's more, the E-Tool is so easy to use that you can generate a full quote in as little as three minutes! And if you have any questions, you can always request a call-back from an engineer.

The Daikin E-Tool provides wide-ranging additional support so that you can deliver an enhanced professional service to your customers and manage all your projects with renewed efficiency.

You will need to register for the Daikin E-Tool: to qualify you must have an account with Daikin Airconditioning UK. The E-Tool registration form is available from www.daikinetool.co.uk/register.

Key benefits for you

- ✓ Easy online tool to complete Sky Air and Split quotations and orders
- ✓ Fastest way to complete your orders: from quote to go in as little as three minutes
- ✓ Generate quotes and order at any time of day or night and on any device
- ✓ Quick and easy way to estimate running costs
- ✓ Access all your important quote and order information
- ✓ View all available accessories, data sheets and additional energy-saving options

Quickly and easily create new projects

Your Daikin E-Tool dashboard gives you an overview of your projects and enables you to create a new project and browse existing projects, orders and products online.

Quickly create a new project by filling out three easy reference fields, then select the products and quantities you need. To help you, there's an overview of each product with access to its datasheet, system information, standard accessories, plus details of the relevant additional energy-saving options.

When you are happy with your selection, you can review your quote. It will show a complete breakdown of the selected items, with a net price that reflects your preferential trade discount.

If you have a problem, you can request an engineer call-back.

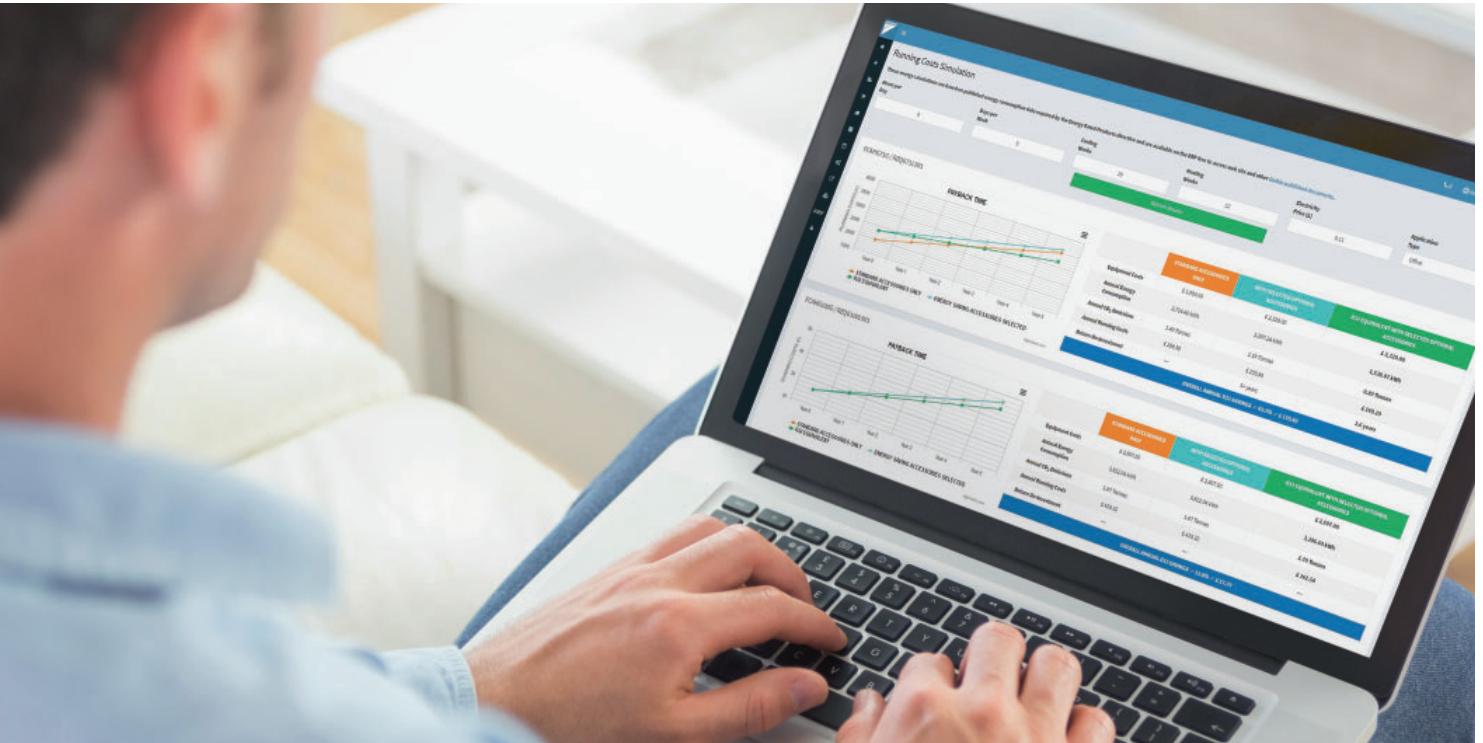

Finally, add the delivery details and click the 'Place Order' button. Your submission will be acknowledged and, after processing, followed by an email confirming order details and delivery date.

Creating a project in 3 easy steps:

- ✓ **Step 1** – Add a purchase order number
- ✓ **Step 2** – Pick or add a delivery address
- ✓ **Step 3** – Select your requested delivery date

Additional features and benefits

Use the Daikin E-Tool to create estimated cost projections for the standard and energy saving accessories. Simply enter details of the operating environment, the type of application and the location. The E-Tool will calculate the annual energy consumption, CO₂ emissions and running costs. It will also show the benefits of the energy saving accessories – including the return on the additional investment.

Another key feature of the Daikin E-Tool is its ability to highlight instances where equipment may qualify for a tax deduction under the government's Enhanced Capital Allowance scheme. Where applicable, the E-Tool provides an eligibility statement confirming that the equipment meets or exceeds the standards of the Energy Technology List.

Finally, the Daikin E-Tool allows you to export your quotation, ROI evaluation, ECA eligibility statement and any available datasheets – either direct to a printer or as PDF documents – so you can provide a professional quotation to your customers and keep a file copy for future reference.

- ✓ Create estimated cost projections for standard and energy saving accessories
- ✓ Calculate the annual energy consumption, CO₂ emissions and running costs
- ✓ Export and print your quotation, ROI evaluation, ECA eligibility statement and any available datasheets

SkyAir A-series
BLUEVOLUTION

Ideal for pair, twin, triple and double twin applications

Model	Product name	71	100	125	140
SkyAir Alpha-series - Industry leading technology for commercial applications - Dedicated solution for infrastructure cooling - Variable Refrigerant Temperature - Maximum piping length up to 85m - Replacement technology - Extended operation range down to -20°C in both heating and cooling - Pair, twin, triple and double twin applications R-32 A++	RZAG-MV1				
	RZAG-MY1				
SkyAir Advance-series - Technology and comfort combined for commercial applications - Very compact and easy to install outdoor units - Maximum piping length up to 50m - Replacement technology - Operation range down to -15°C both in cooling and heating - Pair, twin, triple and double twin application R-32 A+	RZASG-MV1				
	RZASG-MY1				
SkyAir Active-series - Ideal solution for busy environments and small shops - Very compact and easy to install outdoor units - Maximum piping length up to 30m - Replacement technology - Easy-to-mount outdoor units: roof, terrace or wall - Exclusively offered for pair applications R-32 A	AZAS-MV1				
	AZAS-MY1				

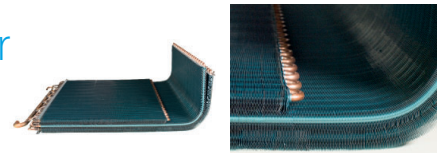

A future-proof solution

Daikin Sky Air A-series uses patented

Daikin technology at the heart of the system

3-row heat exchanger

› Unique 3-row heat exchanger allows compact casing up to 14 kW

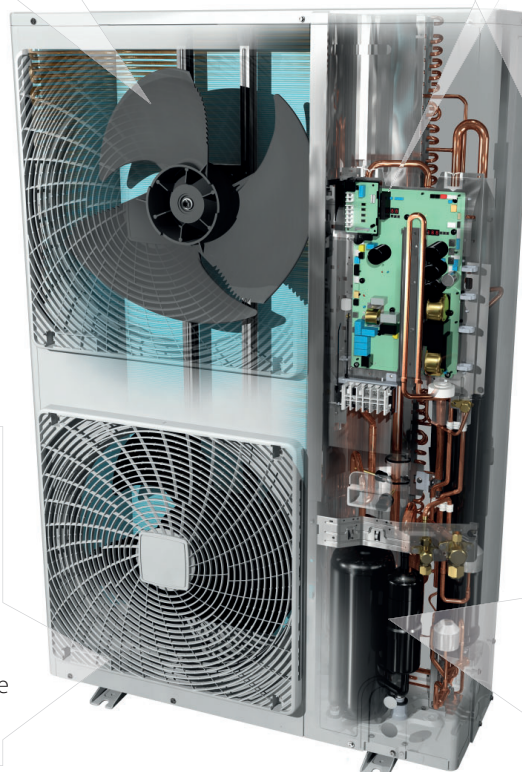

Refrigerant cooled PCB

Jigsaw curved propeller

› Curved discharge grill and Jigsaw curved propeller for minimal turbulence and optimal airflow

Daikin swing compressor

R-32

UNIQUE & PATENTED TECHNOLOGY

Integration of main moving parts in one component

- › No abrasion
- › No refrigerant leakage
- › High compressor efficiencies
- › Increased system life time

Bottom plate and heat exchanger refrigerant pass

› Drain holes are kept ice free

FSC

Carbon Neutral
