

## EASY.C COMBI

- **Suitability:** fully certified, wall-hung electric combi boiler for properties with showers.
- **INPUT kW:** available in 12kW and 18kW (single-phase) and 24kW (three-phase).
- **Easy swap:** new position of the valves makes it even easier to replace gas boilers.
- **Combi Boiler:** Gives heating & instantaneous hot water at >8lt/min, at < 40-60°C.
- **Built-in SMART controls:** you can remotely turn your boiler ON/OFF, change the temperature settings, change the program modes (Summer/Winter, Eco/Comfort) and program the in-built timer.
- **Warranty:** 5 years manufacturer's warranty (TCs apply).

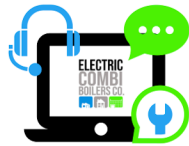

## SMART CONTROLS QUICK DIAGNOSE

Connect your ELEKTRA boiler to the Internet via WiFi to use the boiler's Inbuilt SMART controls

Control your boiler remotely, change the modes or program your boiler Timer with your phone or tablet using the MyBoiler App.

If there's a problem with your boiler, we can check the boiler remotely allowing for a quicker diagnose and repair.

## UK/EU FULLY CERTIFIED LOCAL SUPPORT TEAM

Our ELEKTRA electric boilers have been developed in the UK, manufactured in Italy and fully certified by UK/EU certification bodies.

We have a team of professional installers trained on how to install, service and repair our boilers to provide support remotely or on-site across the UK.
