

## ELEGANCE LINEAR SLIDING DOOR

### Attention to Detail and Quality

#### Bespoke design

Offering the benefits of conventional automatic doors, our custom made Elegance Linear Sliding Doors are available in a variety of single, double, telescopic and multiple configurations. Automatic sliding doors are available with the drive mechanism mounted in the ceiling above the door or the floor beneath the door.

Bauporte develops automatic drive mechanism systems for door leaves with weights of up to 3,000 kg. The door leaves can be designed in stainless steel, aluminum, copper, full glass and in fire resistant, smoke-proof and sound-proof variants.

As an option Elegance Linear Sliding Doors can have a security function with swipe cards.
