Flat Roof and Drainage

Complete engineered flat roof
drainage and attachment

An overview

About us

We design, manufacture and supply specialist fasteners and components for the walls and roofs of industrial, commercial and larger residential buildings.

Over more than four decades we've established a reputation for high quality solutions and above-and-beyond customer support. We have achieved this by adhering to a simple set of aims.

Reliability

We strive to ensure a reliable service to customers; we supply what you need exactly when you need it. We understand that simplicity is essential regardless of project type or size. That's why we are always searching for ways to make your jobs easier. Our team works closely with everyone involved in the build to ensure the best possible results and help solve any problems quickly and efficiently.

Support when you need it

Whether it's via email, over the phone or on-site our team strive to deliver the support and service you need. We provide advice, training, technical calculations and testing to make specification and installation as straightforward as possible.

Quality built in

Our products are manufactured to the highest standards, either in our production facility in Kent or at one of our approved manufacturing sites which are factory production controlled in accordance with CE marking and European Technical Approval.

The highest levels of quality and best practice are at the core of our approach. We have achieved accreditation to ISO 9001 - 2015 standard for quality assurance, ISO 14001 standard for environmental management and BS OHSAS 18001 for occupational health and safety.

Our aim is to constantly be evolving and always ready to respond to the changing demands of the industry – meeting the needs and exceeding the expectations of our customers.

Simply delivered

A fast, accurate delivery is part of our commitment to providing the best customer service in the business. We have built a delivery service that is responsive and reliable to ensure the components you need are in the right place at the right time.

Complete flat roof fastening and drainage systems

The Fixfast product portfolio includes **flat roof fastening systems** to securely fix many roof build-ups to a variety of substrates, robust **roof drainage systems** to suit most flat roof membranes and a substantial range of **other rooftop products** essential to completing the weatherproofing.

Fixfast's fastening and drainage systems are designed to help you deliver long-lasting and secure flat roofs. Our solutions are suitable for many deck types including steel, aluminium, timber and concrete and many flat roof systems. Our range includes products for single ply, TopDek, bituminous and liquid systems as well as for warm, cold, inverted and living roof applications.

Maximum reliability. Minimum fuss.

**Secure
against the
elements**

Flat roof and drainage

The image below shows a series of flat roofs covered with both single ply and bituminous membranes. The roofing shown below is a warm roof construction with different decks and methods of insulation and membrane attachment, showing a selection of flat roofing products available from Fixfast.

fasteners

Whether you're at the feasibility design stage or through to final specification and tender, our comprehensive service and technical support is designed to help you.

Technical support

Our technical support team can supply various data depending on your specific requirements. We provide detailed technical reports on request, including wind load calculations in accordance with Eurocode 1991-1-4, and rainwater flow rate calculations to BS EN 12056:3-2000.

If you're not sure of the integrity of the available substrate, we can undertake on-site pull tests to confirm the mechanical security of your flat roof. And if your project includes a tapered insulation scheme, we can assist you with selecting the correct SureFast tube and fastener system.

Reliable delivery, simplified installation

Products are shipped from our UK warehouse, which means we can offer a quick delivery on almost everything, including the tools and drill bits your team needs to get the job done properly.

Fixfast reliability

We have over 40 years of fastening experience, earning the reputation as a supplier our customers can rely on. We also work closely with all the main industry associations, including the NFRC, SPRA, LWRA and GRO. As a result, our fastening and drainage systems give you what you need to quickly and confidently deliver long-lasting flat roofs for your clients.

You can contact us at any stage of your project. The earlier you involve our technical team, the more we can help.

What to do next

If you wish to make use of any of our free technical services then you will need to logon to the Fixfast website where you can find our wind load and rainwater calculation forms and site visit request forms.

Using the information you provide and our extensive test data, our expert team will undertake the relevant calculations to determine the optimal flat roofing or drainage system for your application. Where required, we can carry out on-site pull tests to confirm the structural suitability of your chosen system with the available substrate.

Products Overview

SureFast® mechanical fastening system

SureFast® SF-T-75 tube washer	
SureFast® SF-T-50 tube washer	
SureFast® SF-TB-50 tube washer barbed	
SureFast® SF-TLP tube washer low profile	
SureFast® SF-RS-5.8 roofing screw	
SureFast® SF-RS-SSA4-4.8 stainless roofing screw	
SureFast® SF-RS-4.8 roofing screw	
SureFast® SF-RS-CL-5.2 roofing screw countersunk	
SureFast® SF-RS-SSA4-6.1 stainless roofing screw	
SureFast® SF-RS-6.1 roofing screw	
SureFast® SF-RS-HCR-5.8 roofing screw high corrosion resistant stainless steel	
SureFast® peel rivet	
SureFast® aluminium drive rivets	
SureFast® pressure plates	
SureFast® termination bar	

QD 3000™ & HandyDek™ insulation adhesive system
