# PURE CLEANLINESS AND FRESHNESS AT THE PUSH OF A BUTTON

The new, perfected Geberit AquaClean Sela with a timeless, stylish design, has been enhanced with additional optimised functions to make this shower toilet even more modern. AquaClean Sela now offers even more convenience, not to mention perfect hygiene thanks to its rimless ceramic pan. At the same time, it complements the Geberit AquaClean product range with a design-oriented, high-quality shower toilet that fits into almost any bathroom environment. With its clear design and chrome-plated cover, it can become the centerpiece of the bathroom.

## ALL COMFORT FUNCTIONS AT A GLANCE:

- WhirlSpray shower technology with five individually regulated shower pressure settings
- Rimless ceramic pan with TurboFlush flush technology
- Remote control
- Remote control app
- Orientation light
- Adjustable spray arm position
- Adjustable shower water temperature
- Oscillating spray
- Lady shower
- Soft close WC seat and lid
- QuickRelease function
- User recognition
- Descaling function
- Economy mode

#### WHIRLSPRAY SHOWER TECHNOLOGY

Like all Geberit shower toilets, AquaClean Sela features the unique, patented WhirlSpray shower technology. The shower spray is refined through dynamic aeration that allows for pleasant and thorough cleaning with low water consumption. So you feel fresh and clean all day long.

#### RIMLESS CERAMIC PAN WITH TURBOFLUSH

Flushing is also extremely quiet and thorough. The innovative TurboFlush technology is based on a flow-optimized rimless ceramic pan. This way, the shower toilet can be flushed at any time without any disturbing sounds – even at night. And since the TurboFlush technology flushes the ceramic pan more thoroughly than a normal flush, you will almost never have to use the toilet brush after going to the toilet.

#### REMOTE CONTROL AND APP

All functions of the AquaClean Sela can be easily controlled from the remote control. Thanks to its intuitive operation, all inputs can be made with one hand and personal settings can be retrieved. The functions of the shower toilet can also be conveniently controlled from the Geberit AquaClean App. It turns a smartphone into a remote control with which settings can be saved and taken on trips. AquaClean Sela also features user recognition, which uses a sensor to prevent the shower spray from being accidentally activated.

#### ORIENTATION LIGHT

The discreet orientation light is just bright enough to show the way at night and makes it easier to fall asleep afterwards. The atmospheric light beam, which is controlled by a brightness sensor and activated in the dark, is available in seven different colours. The intensity of this energy-saving LED light can be adjusted to five different settings.

AquaClean Sela can also be controlled from a wireless wall-mounted control panel that can be placed wherever it fits best.

# QUICK AND EASY STEPS TO YOUR VERY OWN SPA

Geberit AquaClean Sela can be installed in virtually any bathroom. All you need is a mains connection and a water supply.

When time, budget or basic structure considerations do not permit invisible integration of the cistern behind the wall, the Geberit Monolith toilet cistern offers an additional alternative. A slim flushing cistern and the required sanitary technology are housed under an elegant glass surface. The Monolith is constructed in such a way that it can be mounted and connected to the existing water supply lines and discharge pipes quickly and without great inconvenience. The Geberit Monolith Plus comfort version also features an effective odour extraction unit. Thanks to all these features, a bathroom can be transformed into an oasis of well-being in no time.

← Easy installation with WC installation element

With Geberit AquaClean complete solutions, the electrical connection is hidden behind the ceramic pan.

With Geberit AquaClean complete solutions, the water supply connection is hidden behind the ceramic pan.

The new Geberit WC installation elements with concealed cistern are a safe solution for new buildings or comprehensive refurbishments. All necessary connections are already pre-planned so that all AquaClean shower toilets can be easily mounted and connected to the water and power supply.
