

## ROYAL FULL VISION REVOLVING DOOR

### Exceptional transparency

### Bespoke Design

Circular Full Vision revolving doors are all designed and manufactured to order, ensuring an unrivalled level of attention to detail, quality and design flexibility. Using the very best materials and featuring a distinctive glass ceiling, these doors are designed both to impress and provide an energy efficient entrance to grace any building. The principle characteristic of all Full Vision revolving doors is the impressive glass ceiling which provides exceptional transparency and allows the door to blend in with any architectural surroundings. The Royal Full Vision is available with 2, 3 or 4 door leaves and with diameters over 3000 mm. All sizes are available with fully automatic operation and can be supplied in heights in excess of 9metres. As an option the Royal Full Vision revolvers can have a security function with swipe cards. The internal construction is formed from stainless steel for maximum durability and this can be overclad with a variety of materials to produce an outstanding finish.

### TECHNICAL DATA.
