

SCHOTT ARTISTA® – Decorative Clear Glass

Colorless, extra clear & timeless

SCHOTT ARTISTA® clear glass is a high-quality flat glass with an exceptionally low iron content. The resulting crystal-clear clarity of the glass allows a particularly transparent view into the interior of the room and makes it appear larger. Through its structured surface on one side, liveliness and brilliance flow into the room.

Many applications

SCHOTT ARTISTA® can be used in a variety of ways, both indoors and outdoors: in furniture construction, as shower doors or partition walls in the home or office. SCHOTT ARTISTA® is also used in the field of art and design: for fusing, for art installations or for lighting, such as in a chandelier.

Benefits

- Glass with extra-clear properties
- Textured on one side
- Suitable for fusing
- Suitable for lead glazing
- Has the European Technical Assessment ETA-12/0159 of the German Institute for Building Technology
- Wide range of processing options (e.g. as toughened safety glass, laminated glass or in insulating glass laminates)
